

## Nomad® Archform— Elastinol™ SE

MASEL® created the *Nomad* Archform based on the principle that an optimized smile displays well-positioned anterior teeth, the first and second bicuspids, and the mesiobuccal surface of the first molars. This broader form archwire helps prevent dark corners in the posterior of the mouth, thus providing patients with a beautiful, wide smile.

The *Nomad* Archform features a “drift-free” dimple and is comparable to *Ormco*®’s *Damon*®\* Archform and sizes. Reduced inventory requirements result in lower costs because the universal shape is used in both the maxillary and mandibular arches. Its ultra-smooth finish provides the ultimate in friction-free sliding mechanics, making it the perfect wire to use with your current self-ligating bracket system.

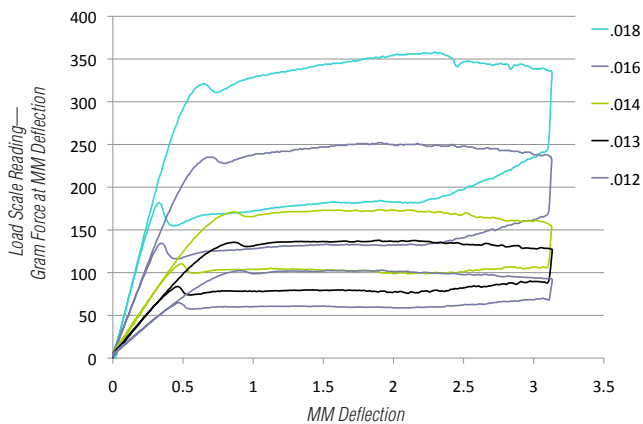

Sizes		Nomad
INCHES	MM	ITEM NO.
.012	.30	4807-112
.013	.33	4807-113
.014	.36	4807-114
.016	.40	4807-116
.018	.46	4807-118
.014 x .025	.36 x .63	4807-124
.016 x .016	.40 x .40	4807-126
.016 x .025	.40 x .63	4807-136
.018 x .018	.46 x .46	4807-128
.018 x .025	.46 x .63	4807-138
.019 x .025	.48 x .63	4807-119
.020 x .020	.51 x .51	4807-120

- Available in round, square, and rectangular sizes
- Available in *Elastinol* Nickel Titanium “Drift-Free” to prevent wire movement
- Universal arch for upper and lower arches
